About H2E:

H2E is an electrical engineering consulting firm specializing in electrical engineering, power, automation, controls, and software for industrial and municipal markets.

We hold professional engineering licenses in over thirty US states where we provide professionally guided ideas through our consulting, professionally sound solutions through our engineering, and professional expertise in implementation through our commissioning and startup support.

H2E's core values are Excellence, Communication, and Passion. These core values describe our culture, the expectations we set for ourselves, and the standards we use to hold each other accountable.

Why join H2E?

H2E is the team that achieves excellence. This is the place where you will apply your experience, skills, and talents to solve problems that make people's lives better. At H2E, we match your commitment to succeed by giving you real opportunities to grow while providing you with training and a supportive environment.

Benefits:

- Competitive pay
- Employer paid premiums for health, dental, and vision insurance
- Long-term disability and life insurance benefits
- 401k with employer match up to 6%
- Company profit sharing
- Paid vacation and sick time
- 10 paid holidays
- Professional development opportunities
- Collaborative team environment

What you'll do:

- Collaborate with Project Managers to generate invoices multiple times per month.
- Provide timely and accurate accounting to execute semi-monthly payroll cycles.
- Process Accounts Payable and other accounting transactions in compliance with accounting principles and company procedures.

What you'll bring:

- Intense attention to detail and drive to follow-through to completion.
- Associates degree and/or comparable experience in basic accounting and finance practices.
- Aptitude in the use of electronic accounting systems and the ability to learn and adapt to new systems and processes.

How to Apply:

To apply for this position, provide your resume and cover letter.

In your cover letter, please explain why your experience is relevant to this role.
