Project Manager

Position Summary:

A professional who will lead the development, planning, and execution of industrial electrical engineering projects focused on power and controls/automation.

Compensation: $80,000 - $140,000 annual salary, depending on experience

Location: Liberty Lake, WA or Helena, MT (relocation assistance available)

About H2E:

H2E is an electrical engineering consulting firm specializing in electrical engineering, power, automation, controls, and software for industrial and municipal markets.

We hold professional engineering licenses in over thirty US states where we provide professionally guided ideas through our consulting, professionally sound solutions through our engineering, and professional expertise in implementation through our commissioning and startup support.

H2E's core values are Excellence, Communication, and Passion. These core values describe our culture, the expectations we set for ourselves, and the standards we use to hold each other accountable.

Why join H2E?

H2E is the team that achieves excellence. This is the place where you will apply your experience, skills, and talents to solve problems that make people's lives better. At H2E, we match your commitment to succeed by giving you real opportunities to grow while providing you with training and a supportive environment.

Benefits:

- Competitive pay
- Employer paid premiums for health, dental, and vision insurance
- Long-term disability and life insurance benefits
- 401k with employer match up to 6%
- Company profit sharing
- Paid vacation and sick time
- 10 paid holidays
- Professional development opportunities

What you'll do:

- Accomplish project objectives by gathering information and planning, obtaining necessary resources, adequately managing constraints, and adapting to changing circumstances
- Ensure scope, schedule, & budget are documented and managed well throughout project life cycles
- Lead in problem-solving, risk mitigation, and aligning stakeholders and team members for success

What you'll bring:

- Minimum 3 years' project management experience in construction or engineering disciplines
- Innate ability to build and motivate project teams leading to high levels of engagement and success
- Leadership and interpersonal skills that the people around you recognize and appreciate
- PMP certification

How to Apply:

To apply for this position, email your resume and cover letter to recruiting@H2Einc.com.

In your cover letter, please explain why your experience is relevant to this role.
